

Need a Speaker?

Berks County Recorder of Deeds, Fred Sheeler is available to speak at your organization's meeting. Fred can provide a live website demonstration outlining the steps necessary to access over 250 years of deed and mortgage history contained in the Recorder of Deeds Office.

Fred has spoken before a variety of groups such as historical societies, Rotary clubs, the Bar Association, the Realtor's Association and neighborhood associations. This interesting presentation can be customized to your group's particular interests.

Most records in the Recorder's office have been digitally preserved and are now available to you to research a particular property, person, or family. Fred's demonstration will walk you step by step through the process of researching this valuable information right from your home computer. A number of historic documents are highlighted in the demonstration. However, most audiences ask Fred to research something of personal interest to them.

You can contact Fred at FSheeler@CountyOfBerks.com or by phone at 610-478-3380.
