

## County of Berks - Orthophotography & LiDAR Information Sheet

**Pennsylvania Spatial Data Access (PASDA)** has orthophotography and LiDAR data available for download. This data is provided by various state and federal agencies for download in various formats such as geotiff, mrsid, jpg2000 and shapefile formats where applicable.

### Imagery & LiDAR Products

The imagery may be accessed and downloaded from **PASDA**: <http://www.pasda.psu.edu/>. The mapping application, **PA Imagery Navigator**, will allow for the download of a variety of imagery and LiDAR based products by browsing to a county extent or an address. Visit this link for more information: <http://maps.psiee.psu.edu/ImageryNavigator/>

The online tool has the ability to access imagery from the following years:

- 2015 NAIP 4 Band Imagery**
- 2013 NAIP 4 Band Imagery**
- 2010 NAIP 4 Band Imagery**
- 2008 PAMap Color Imagery**
- 2008 NAIP 4 Band Imagery**
- 2004 PAMap Color Imagery**
- 2004 NAIP 4 Band Imagery**
- 1999 USGS Black & White Imagery (NAPP DOQQs)**
- 1993 USGS Black & White Imagery (NAPP DOQQs)**
- 1980-1987 USDA Farm Service Agency Color Infrared Imagery (Not Georeferenced)**
- 1967-1972 USDA Farm Service Agency Black & White Imagery (Not Georeferenced)**
- 1957-1962 USDA Farm Service Agency Black & White Imagery (Not Georeferenced)**
- 1937-1942 USDA Farm Service Agency Black & White Imagery (Not Georeferenced)**

The online tool has the ability to also access these additional data products:

- USGS Digital Raster Graphic (DRGs) Topographic Maps**
- USGS 30m Digital Elevation Models (DEMs)**
- DCNR PAMAP Program LiDAR Products:**
  - **DEMs**
  - **Countours**
  - **Breaklines**
  - **LAS**

**\*\*NOTE: Pennsylvania Spatial Data Access (PASDA) and the PA Imagery Navigator is a joint venture of various state offices, agencies and the Pennsylvania State University. Questions regarding its use must be directed to the PASDA Help page. Please use these links to guide you:**
