

As of October 4, 2022

Below are some of the changes that remain in effect due to COVID-19:

- All Work Release programs remain suspended.
- Friends and family visitation resumed with limited, non-contact visits, on March 14, 2022 (refer to the guidelines outlined on the 'Visitation' page on this website).
- We are following recommended guidelines to restrict access as necessary based on signs and symptoms of COVID-19. Staff, visitors, and inmates are strongly encouraged, but no longer required in most areas/instances, to wear masks indoors while on jail property.
- Telephone Calls: Access to telephones may be limited and schedules may change quickly as circumstances warrant. Until further notice, we are continuing to provide inmates with one free telephone call (up to 5 minutes) per week. This is reviewed each month to determine our ability to continue providing these calls. We are also issuing a limited amount of writing paper and postage paid envelopes.
- Tablets and Video Visits: Tablets have been widely distributed throughout the institution to give the inmates additional opportunities to make calls and video chats. These tablets can be funded at www.gettingout.com. We are currently providing all tablet-eligible inmates with free video visits and due to the suspension of friends and family visitation, have increased it to two video visits (up to 15 minutes) per week. (Inmates without tablet privileges will receive two additional free telephone calls, up to 15 minutes, in lieu of video visits). This is reviewed each month to determine our ability to continue providing these video visits.

Again, our primary focus is the safety and well-being of all who work and live here, so these protocols may be enhanced or changed at any time based on changing conditions and/or guidelines. **“DO YOUR PART – STOP THE SPREAD”**
