

## **Longswamp Township Establishes a Sewage Management Program**

Following the recommendations of the Pennsylvania Department of Environmental Protection (DEP), the Longswamp Township Board of Supervisors has established a Sewage Management Program for Longswamp Township. In the interest of public health, it is necessary to implement a sewage management program to effectively prevent water pollution and hazards to the public health caused by improper treatment and disposal of sewage.

All residents having an individual sewage disposal system are required to have the system tank cleaned out by pumping by a registered pumper/hauler at least once every three (3) years. All residences/properties in Cycle 1 will be required to pump prior to the pump expiration deadline or contact the Township regarding the procedure for exemptions under the Ordinance. A complete copy of the Ordinance is available at the Township office.

The Township has been divided into three (3) Cycle areas (map shown below):

Cycle 1 (Blue area of map) – January 2007 – June 30, 2007

North side of State Street and Mountain Road, East of Tipton Borough

Cycle 2 (Green area of map) – July 1, 2007 – June 30, 2008

North side of State Street, West of Tipton Borough and  
South side of State Street, West of Centennial Road and Woodside Avenue

Cycle 3 (Tan area of map) – July 1, 2008 – June 30, 2009

South side of State St. and Mountain Rd., East of Centennial Rd. and Woodside Ave.

Repeat Cycles 1, 2 and 3
