

CACOOSING CREEK

Tree Planting and Stream Clean Up!

1PM to 4PM

SAT.
MAY
18th

South Heidelberg Township is teaming up with the Berks County Conservation District to plant trees along the Cacoosing Creek on Saturday, May 18, 2019 at 1PM to 4PM. The trees are donated by PPL's Community Roots Program.

LOCATION: Heidelberg Run East - South Sandy Ln.

We are planting 65 trees!

VOLUNTEERS

WE NEED YOUR HELP!

Volunteers are needed to help plant trees and assist with stream clean up. Volunteers are asked to wear heavy boots for tree planting or waterproof boots for stream clean up. Bring a pair of gloves, a reusable water bottle, and we recommend wearing sunscreen.

The Conservation District and planting sponsors will provide all other equipment and supplies including shovels, trash bags, extra gloves, drinking water, and light snacks.

INTERESTED? Please contact South Heidelberg Township, we would love to add you to our list! 610 678-9652

Cacoosing Creek is designated a **Naturally Reproducing Trout Stream**. It is also designated a **Class A Wild Trout Stream**. (There are a lot of trout and big enough to keep...legal size.)

Brown trout and Brook trout are both present in the creek.

The presence of wild trout is unique and special. There are not many streams in this part of Pennsylvania healthy enough for trout to live in them.

Community awareness of this information lends to appreciation for, and increased care of this special watershed.

Informative talks on day of event:

- Protecting Drinking Water
- Spotted Lantern Fly

Provided by: Berks County Conservation District

Groups committed to helping Cacoosing Creek:

- Tulpehocken Trout Unlimited Chapter
- Tulpehocken Creek Watershed Association
- Penn State Master Watershed Stewards
