

BERKS HEIM NURSING AND REHABILITATION  
PA DEPARTMENT OF HEALTH  
REPOENING PLAN CLARIFICATION  
10/16/2020

Unfortunately, Berks Heim now must restrict all indoor visitation with the exception of pre-approved Compassionate Care / End of Life visitation. This is due to (3) staff members testing positive for COVID-19.

In order to re-open inside visitation the facility must meet the mandatory requirement of being COVID positive free for a minimum of 14 days. To this end, all residents and staff will be tested at least weekly until the minimum of 14 days is reached.

Berks Heim is still able to offer pre-scheduled outside visitation (weather permitting) to only those residents that resident on "Green" Units (COVID Unexposed Zones).

If you are interested in visiting a resident at Berks Heim please contact the Social Services or Activity Department to schedule a visit.

Visit times are currently limited due to scheduling needs. Berks Heim will work to schedule all requested visits so that residents have an opportunity to visit with their loved ones.
