

BERKS HEIM NURSING AND REHABILITATION
PA DEPARTMENT OF HEALTH
REPOENING PLAN CLARIFICATION
10/23/2020

Unfortunately, Berks Heim now must restrict all inside and outside visitation with the exception of pre-approved Compassionate Care / End of Life visitation. This is due to (3) staff members and (1) resident testing positive for COVID-19.

In order to re-open inside and outside visitation the facility must meet the mandatory requirement of being COVID positive free for a minimum of 14 days. To this end, all residents and staff will be tested at least weekly until the minimum of 14 days is reached.

Berks Heim is no longer able to offer inside or outside visitation at this.
