

BERKS HEIM NURSING AND REHABILITATION
PA DEPARTMENT OF HEALTH
REPOENING PLAN CLARIFICATION
07/07/2021

Berks Heim has completed the facility wide outbreak testing as of 7/7/2021 and is able to resume pre-scheduled outdoor (weather permitting) and indoor visitation to those residents that reside in “Green” areas of the facility (COVID Unexposed Zones). Indoor visitation will take place in the facility auditorium on the 1st floor and the outdoor visitation will remain just outside of the front entrance of the facility.

At this time in room visitation can only be accommodated for residents residing in private rooms or for those residents that do not have a roommate.

If you are interested in visiting a resident at Berks Heim please contact the Social Services or Activity Department to schedule a visit.

Visit times are currently limited due to scheduling needs. Berks Heim will work to schedule all requested visits so that residents have an opportunity to visit with their loved ones.

As always compassionate care visitation will continue through requests reviewed by the Director of Nursing.

Thank you for all of your continued support as we do our very best to navigate the anticipated end of the COVID-19 pandemic.
