

### FOR PRE-K

## BACKGROUND

To slow the spread of coronavirus disease 2019 (COVID-19) into Pennsylvania, the Department of Health (DOH) is working with local public health partners to implement after-travel health precautions. There are currently four countries that have a Level 3 Travel Health Notice. Additional countries may be added as the global situation continues to evolve. An updated list of countries can be found [here](#)

It is important to call **1-877-PA-HEALTH (1-877-724-3258)** before you go to a doctor's office or emergency room after coming back from traveling. If you get sick with fever (100.4°F/38°C or higher), cough, or have trouble breathing, seek medical care; tell your doctor about your recent travel and your symptoms, avoid contact with others.

If you need medical care for other reasons, call ahead to **1-877-PA-HEALTH (1-877-724-3258)** and to your doctor and tell them about your recent travel to an area with widespread or ongoing community spread of COVID-19.

## WHAT SHOULD SCHOOLS DO?

If a student, teacher or faculty member have returned from Iran or China:

1. The health department will be alerted by CDC and will contact the individual(s)
2. Stay home and self-isolate yourself for 14 days after travel

If a student, teacher or faculty member have returned from Italy or South Korea:

1. They need to call **1-877-PA-HEALTH (1-877-724-3258)** to let the health department know about their travel
2. Stay home and self-isolate yourself for 14 days after travel

Any travelers returning from Iran, China, Italy and South Korea should self-monitor for symptoms like fever, cough, or trouble breathing. If you become sick, call **1-877-PA-HEALTH (1-877-724-3258)** and the doctor's office or emergency room before visiting.

For information on how to self-monitor and practice social distancing, visit

<https://www.health.pa.gov/topics/disease/Pages/Coronavirus%20Travelers.aspx>

## WHAT IF WE HAVE A STUDENT WHOSE HEALTH IS BEING MONITORED?

If a student becomes a patient under investigation, schools should continue to follow usual procedures for notification of parents/guardians whose children are ill at school. Schools should also work with their local health department regarding notification.

## PREVENTIVE MEASURES

The department encourages schools to increase education on ways to protect yourself from illnesses such as the cold, flu and also the coronavirus:

- **Wash** hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer if soap and water are not available.
- **Cover** any coughs or sneezes with your elbow, do not use your hands!
- **Clean** surfaces frequently, such as countertops, light switches, cell phones and other frequently touched areas.
- **Contain**- if you are sick, stay home until you are feeling better.
