

County of Berks GIS Data Fee Structure:

Products:

1. Tax Assessment Product Disk:

Contents:

- 73 zipped files containing ESRI shapefiles of the tax parcel layer for all municipalities in the county (for use within a GIS environment).
- 73 AutoCAD DXF files of the tax parcel layer for all municipalities in the county (for use within a CAD environment).
- 1409 reduced format (11" x 17") maps in Adobe Acrobat pdf format (all individual tax maps of the county).

Cost:

- \$100 per disk

2. Base Map/Planning Data Product Disk:

Contents:

- County wide GIS data sets in ESRI shapefile that are base map and planning related.
- The disk may contain (but may not be limited to) the following: boundaries (municipal, county, and school district), roads and highways (without addressing information), railroads, existing and future land use, streams, agricultural easement & security areas, etc.

Cost:

- \$100 per disk

3. Street Centerline Product Disk:

Contents:

- County wide GIS centerline data in ESRI shapefile with street and road addressing information.

Cost:

- \$500 per disk
