## GMACC Joint SW Pipe Removal Project

(Continued from Page 2) Kenhorst was responsible for preparing the site by clearing the underbrush and several trees, and obtaining all of the materials needed for this project. The municipalities and school district agreed to supply the manpower and heavy equipment.

Completed project

Brecknock provided a backhoe and operator, Cumru, Shillington, and Mohnton each provided personnel, hand tools and dump trucks and the School District assisted in restoring the work area by grading and reseeded.

This project was a wonderful opportunity for all of us to work together to foster further cooperation among the various local entities.

**POLICE NEWS**

On August 19<sup>th</sup> the Reading Police Department honored the victim of a recent hold up at the Wash Around the Clock Laundromat located on Fern Avenue in Kenhorst for his heroism and resolve. The victim fought off the masked, armed assailant for 12 minutes, managing to bring the altercation outside and having the presence of mind to rip the mask off of the assailant so that security cameras could record the incident. He was able to break free, get into his car and drive himself to the hospital with a gunshot wound to the head. The assailant was taken into custody at St. Joseph's hospital where he went for treatment for injuries sustained during the fight.
