

DO YOU HAVE WELL WATER?

Let us test it for free!

March 30th
10am- Noon

Drop off your water samples at
Saucony Creek Brewing Company in
Kutztown to be tested by Maiden Creek
Watershed Association.

Testing is limited to the first 75 people who register in advance.

We'll test for: pH levels, chlorine, hardness, nitrate, nitrite & bacteria (total coliform/E. coli). Please note: This is **informational** testing, not lab quality. Maiden Creek Watershed Association* always recommends having your water tested by a professional lab. Testing results will be emailed to you within 24-48 hours of drop-off.

**A program of Berks Nature, Maiden Creek Watershed Association is made up of volunteers, whose mission is to monitor and protect local streams and educate others on the issues and importance of watershed stewardship.*

Secure your spot for testing by registering in advance through Michael Griffith, michael.griffith@berksnature.org, or 610-372-4992 x108.
