

The regular monthly meeting of the Borough Council of the Borough of Sinking Spring was called to order on Thursday, December 4, 2008 at 7:00 p.m., at the Sinking Spring Borough Hall by President Stewart Wenrich. After the Pledge to the Flag, Debra Bohn called the roll reflecting the following Council Members present:

Stewart Wenrich  
Bruce Light  
Barbara Kutz (absent)  
Lawrence Schmidt  
George Butkus (absent)  
James Zerr  
Elizabeth Sloan

Other officials present were: Mayor Clarence Noecker, Charles Fitzpatrick, Borough Solicitor, James Oxenreider, Chief of Police, Robert Ludgate, Sr., Ludgate Engineering, David Schlott Jr., ARRO Consulting, Ronald Wentzel, Liberty Fire Company, Michael Hart, Public Works Director, and Debra Bohn, Administrative Assistant, who recorded the minutes of the proceeding.

A moment of silence was held for our armed services, which are in harm's way; also for our police and fire departments.

#### **APPROVAL OF MINUTES:**

Mr. Light made a motion to accept the meeting minutes from the November 6, 2008 Council meeting; seconded by Ms. Sloan. AYES – 5, NAYS – 0; motion carried.

#### **VISITORS:**

There was a list of visitors to address Council. They were there in regards to the Western Berks Fire Company. The first person to address Council was Mr. Robert Williams. He was talking about the merger of the four (4) fire companies. He thanked Council for allowing him to speak. He has been a Borough resident since 1965 and moved his business into the Borough in 1980. He was a volunteer fireman in the 1960's. He served on many community boards over the years and serves on Church committees as well. He continued that he lost his building to a fire in 1985 and counted on our fire department to put out that blaze. When it comes to mergers he thought a lot about this. He said if you just go from Reading west, how many municipalities there are, fire companies, etc. This is very wasteful. It would be more economic if some of these groups would just work together. This is what this fire company merger is all about. He admitted in the beginning he was not convinced this was the way to go. It took a while sitting at the task force meetings listening to the fire company people and community members speak of their desire and passion on these issues. He explained that these people can't be fundraising people anymore. They need to spend more time training. Getting volunteers during the daytime hours is especially difficult. The majority of the municipalities, he believed, allowed street workers to go and put out fires. Mr. Williams feels we need to listen to them and what they need. Mr. Williams feels the Borough was not informed as they should have been all along. He feels that a lot of the info early on did not reach Council. On October 21<sup>st</sup> of this year there was a joint meeting and only two (2) people from this Council attended. He continued about two (2) weeks prior another meeting was

**VISITORS (cont'd):**

held and the budget along with some other items were revamped. Mr. Williams is in favor of this and feels if we don't join in on this we would be making a big mistake. He continued that three (3) of the four (4) municipalities are on board with this already. At this point Sinking Spring is the only one that has not committed as of yet. He continued; please realize that this fire company will be standing alone and in jeopardy of losing more firefighters. He just believes it will become a very difficult task for us. The next visitor was Glen Hostetter. He has been involved with other mergers and he is helping out in this merger as well. He is very proud of this. This group has shown more enthusiasm than any other group he has been involved with. They have come a long way. The firefighters want to make this go. This will save money for the Borough while providing more fire coverage. He was willing to answer any questions. The next visitor was Brian Clements. He explained exactly where the task force was and where he hopes it goes. He feels if anything has gotten this off track was the inclusion of South Heidelberg Township and the Fritztown Fire Company. This appeared to be an emotional issue. He explained to Council why this happened. South Heidelberg Township had been getting a free ride for fire protection. They would donate \$500 or \$1,000 to the fire company. They would give them the 2% State money. Wernersville was paying South Heidelberg's cost of fire fighting. It is one thing if one Borough is subsidizing South Heidelberg. If we bring in Lower Heidelberg, Wernersville, and Wernersville that would mean three (3) municipalities would be subsidizing South Heidelberg's fire protection or someone would have had to make the decision not to supply fire protection to them. Someone needed to approach them for that reason. He understands it is a difficult decision for some but it needed to be done. He said if any municipality is taking a hit it is South Heidelberg Township. They are going from spending nothing to spending \$700,000 a year. Since there are many conversations going between people, the task force has asked the solicitors to be the focal point for all questions/issues. Some of the issues that Mr. Fitzpatrick has, have been brought to the table and have been hopefully answered; some the way he liked some the way he didn't care for. They have gone to the fire chiefs after the meeting with some of the feedback and asked the financial people to get together and try to revamp the budgets. They have done that to a much lower number so hopefully that is acceptable. There has been no bad feelings to have one (1) municipality get more than another. There were some tough times however he feels now things are great. They are all working together. He then thanked Council for their time.

**COMMUNICATIONS:**

There were no communications.

**APPROVAL OF THE BILLS:**

Mr. Light made a motion to pay the bills; seconded by Mr. Schmidt. AYES – 5, NAYS – 0; motion carried.

**BUDGET ADOPTION:**

Mr. Wenrich stated the following 2009 budgets were tentatively approved at the November 24<sup>th</sup> meeting. They have lain open for the required ten (10) days. Mr. Light made a motion to adopt the General Fund budget; seconded by Mr. Schmidt. AYES – 5, NAYS – 0; motion carried.

**BUDGET ADOPTION (cont'd):**

Mr. Schmidt made the motion to adopt the sewer budget; seconded by Ms. Sloan. AYES – 5, NAYS – 0; motion carried. Mr. Schmidt asked Mr. Fitzpatrick if he received any of the answers to the questions he was seeking in regards to the fire department. Mr. Fitzpatrick stated he prepared a list of seven (7) questions that he submitted to the solicitors of the other municipalities as well as Mike Mixell who is the solicitor of the task force. He did receive the answers to all seven (7) questions around 4:30 that afternoon. However, the second question he asked was “concerns exist regarding the initial budget especially the inclusion of four (4) paid drivers from the outset; should consider phasing in the paid drivers. Perhaps two (2) initially with those two (2) floating among the four (4) locations. In addition, there should be focus on cutting costs. The response he received that pencils were sharpened and some cutbacks were made. With regards to 2009, the proposed budget is \$685,152.00. As he understands it, it this will become effective July 1, 2009. With that said the \$685 figure is not accurate as that is an annual amount. So roughly half of that will be there for 2009. Mr. Clements agrees. The 2009 budget does not include two (2) paid drivers. However for 2010 that is where the four (4) paid fire drivers would be paid from (2009 budget). At this point the proposed budget will be \$867,152.00. Mr. Fitzpatrick stated the Borough of Sinking Spring will be responsible for about 20% of that. Mr. Fitzpatrick feels our budget will cover the cost if we only spend what we are suppose to in regards to half the year. A brief discussion ensued. Mr. Schmidt made a motion to adopt the 2009 fire department budget as proposed; seconded by Mr. Light. AYES – 5, NAYS – 0; motion carried.

**MILLER ENVIRONMENTAL:**

Mr. Peter Juzyk gave the report for November, 2008. Mr. Juzyk stated he received an infrared thermography inspection report from Reading Electric. He signed a work order to replace the oil heater in the garage with Berks Products. It is on order and when it comes in they will schedule a time to replace it. He received a quote from Reading Electric for replacement of the light pole knocked down by the Crystal Spring driver in October. He forwarded the quote to the insurance company. There was one (1) service call at WAWA for a lateral clog. There was a clog at the trap. He spoke to the manager about it. The average monthly flow was 505,000 gallons, the total monthly flow was 15, 144, 000 gallons, the minimum daily flow was 442, 000 gallons and the maximum flow was 599,000 gallons. Total rainfall was 2.12 inches and there were no violations. The contribution by municipality is Sinking Spring (which contains an unmetered portion of Spring Township) is 67.2%; Lower Heidelberg is 22.9%; and South Heidelberg is 10%. Looking at the influent data BOD and solids are lower than what they had been. So by changing the location of the influent testing has corrected this problem.

Mr. Wenrich stated we were planning to extend the contract with Miller. Being that the plant is now our responsibility, Mr. Fitzpatrick is in possession of their proposed contract. Mr. Fitzpatrick stated he has reviewed amendment number two (2) to the existing contract. From a legal prospective it looks fine to Mr. Fitzpatrick. Mr. Schlott has reviewed and feels it is acceptable as well. Mr. Fitzpatrick stated the Borough’s two (2) professionals have reviewed them and are in agreement we should accept it as is. Mr. Schmidt made a motion that we accept the amendment number two (2) to the Miller contract; seconded by Mr. Light. AYES – 5, NAYS – 0; motion carried.

**WESTERN BERKS TASK FORCE:**

Ms. Sloan requested that Council take a vote on the fire department merger. She was not sure that Mr. Fitzpatrick wanted to go over all seven (7) answers to those questions. Mr. Fitzpatrick stated he was a bit confused. In order to commit to the merger there needs to be an agreement prepared. It must be reviewed by all of the Solicitors. There were not only questions submitted by him, but also my other municipal solicitors as well. He has not seen any agreement. Until that agreement is prepared, he feels there is nothing to vote on. The Borough already has indicated by paying the \$1,500.00 in principal to pursue the merger. At this point, this all we can do. He is not quite sure what other municipalities have done as no agreement has been prepared. Until that is prepared and until we see the responses to the other questions that were raised, he said he could not recommend on voting on something we haven't seen as of yet. Ms. Sloan questioned Mr. Clements on the status of the draft. Mr. Clements stated he believes it is being worked on. He continued when Wernersville and South Heidelberg voted on it, it was a resolution to along with the merger and that they know there is a whole list of tasks that need to be done by July 1<sup>st</sup> to merger. His understanding is that Lower Heidelberg has the same thing which will be adopted at their next meeting. Mr. Fitzpatrick stated he would be happy to look at what they were adopting but he still feels there is nothing for Council to review at this time. Mr. Clements stated there was nothing for the others to review either. Mr. Fitzpatrick stated that is up to their solicitors. He continued how could he recommend what you don't see? There were questions raised that were not answered as of yet. He received an e-mail at 4:30 that day, of answers to some questions, but he does not know the questions the other ones had created. He hasn't seen those answers. Mr. Clements stated basically their solicitors are running with the "ball" that their elected officials want. (Mr. Clements spoke however it was inaudible). Mr. Fitzpatrick stated again, until he sees something in print, he can't recommend Council to act on anything. Ms. Sloan asked what it will take to get this moving along. She continued could they fax over the other resolutions; Mr. Clements could send the resolutions over to him. The first question that was raised was the composition of the Board of Directors. He explained who they would be. After three years, the Board would become nine. His concern is that the municipalities are required to fund this 100%; however if the fire personnel voted to fund something the municipalities would have no control. The municipalities would then have to go to their people and say, even though we had no control over this expense, we shall have to raise your taxes. Mr. Fitzpatrick stated he thought that perhaps a super majority to cover certain issues. The response that he received from Mr. Clements was that they were generally in agreement with that however it would continue to be 13 members. There will be no provision if you would want to pull out of this venture. Another issue is the moving of the equipment from the municipality who purchased it to another locale living that municipality without direct access to it. The answer Mr. Fitzpatrick stated was perhaps another super majority before this occurs. The response was that the merged fire company would need flexibility. This type of recommendation would not work. They would prefer to have the ability to move equipment from one location to another. Mr. Clements explained why this would be difficult. Another issue is the cash. What happens to the cash, would that be used as seed money for the merger? The proposal is whatever cash is available will be given to the new company. It will be seed money. Ms. Sloan stated that we shall be receiving a grant. Mr. Clements stated that was not correct. There is grant money available but someone will need to be hired or get someone to write the grant as this is a very difficult process. Another question is what will happen if and when someone wills money to the local fire company. Is that to be used to satisfy local contribution or is it to be used to reduce the contribution by all of the municipalities? Basically, the response is that it goes to the merged fire

**WESTERN BERKS TASK FORCE (cont'd):**

company and does not go toward anyone's contribution. That is the proposal. The last issue is a grant issue that was discussed. Ms. Sloan stated that we should get copies of the other resolutions and have Mr. Fitzpatrick review it and get back to Council with his feedback. It was stated that Mr. Andy Bellwoar was creating the document/agreement. Mr. Fitzpatrick stated as soon as he receives this he will see that Borough Council gets a copy of it for their review. There will be no delay; however he as a professional really cannot ask Council to vote on something they have not seen. Mr. Clements stated this will be an intermunicipal agreement. (Once again, could not really hear what he was saying due to traffic). Mr. Wenrich questioned if Mr. Fitzpatrick will have a chance to review the document by the end of December meeting. Mr. Fitzpatrick stated that will depend on when he receives it. Mr. Schmidt stated that meeting is strictly a paying of the bills meeting and not a huge meeting where something like this should be discussed. A discussion ensued as to when the next meeting will be held. It was decided that we could vote on this at our next regular Council meeting. Mr. Greg Dietrich stated at Lower Heidelberg's last meeting, they in principal said they were going to do it, so they had Mr. Bellwoar draw up an agreement that they would sign on the 15<sup>th</sup>. Currently, they are meeting with Mr. Bellwoar, so Mr. Dietrich stated he will contact them (the Supervisors) and have them have Mr. Bellwoar contact Mr. Fitzpatrick and get that agreement over to him as soon as possible. It is a resolution to go forward with the task force. Mr. Marvin Coldren questioned if anyone looked into the additional monies it will cost the residents for insurance by moving the equipment out of the Borough. Mr. Fitzpatrick stated that no one has said the equipment is being moved out of the Borough. Mr. Ron Wentzel stated the hang up of this Borough is the ladder truck and the reality is that the truck fits nowhere else but in our firehouse so it can't even be moved. Mr. Coldren again asked if anyone looked into the cost of the homeowner's insurance. Mr. Fitzpatrick stated the answer no. Someone from the audience stated they had talked to someone in the insurance office and they said it will not hurt your rates at all. It is strengthening the volunteer fire company. Both Mr. Wenrich and Mr. Coldren would like to see that in writing. Mr. Coldren stated his insurance is based on being a certain distance from a firehouse. Mr. Fitzpatrick disagreed; he believed it was based on being a certain distance from a fire hydrant. Mr. Coldren stated the response time for fire equipment as well. He continued the fire hydrant does you no good unless there is something there to use it. Mr. Wentzel said it is based on water supply not a fire department. Mr. Coldren stated yes, but also a fire station as well. Someone else stated with a paid firefighter on staff you are sure to get the trucks out and not have to wait for a volunteer to show up and get the truck out.

**REVITALIZATION PROJECT:**

Mr. James Pachuillo addressed Council. The PCTI application for \$5 million dollars was completed and submitted for the first phase. The deadline is December 15<sup>th</sup> however we have submitted the application. We should not here a response until after that date however they are optimistic about this grant as we were told we are "a poster child for smart transportation." The Berks County Redevelopment Authority's director, Mr. Kenneth Pick, has volunteered to begin working with the Borough's Planning Commission on a redevelopment plan for downtown Sinking Spring. The plan will be essential. The plan will complete the vision of Sinking Spring. Sam Loth has been working hard with the DCED in fine tuning the LUPTAP grant as well. That should be going in shortly. They feel optimistic on this as well. This grant will be a stepping stone to other grants. On December 10<sup>th</sup>, Mr. Bernie Campbell will be meeting with Wilson School District

**REVITALIZATION PROJECT (cont'd):**

officials regarding the project as well. The Official map has been recorded. The committee has chosen the alternate retail street plan as their first choice when planning begins. Business surveys are underway. The surveys stated that smaller businesses are in favor of the project however they are not well informed about the project. Other committees are trying to change this. The Design committee is working with streetscape planning with Mr. Peter Eisenbrown. The Promotional team had the event at the fire company a few weeks prior. It was a Vera Bradley Bingo and it was a huge success. He stated there would be more events forthcoming. He wished everyone a happy and safe Holiday.

**REPORTS OF DEPARTMENTS AND COMMITTEES:****POLICE CHIEF – JAMES OXENREIDER:**

Chief Oxenreider stated there was a request for a handicap parking space at 4046 Penn Avenue. They feel it is warranted. Mr. Schmidt made a motion to grant the request for a handicap parking space at 4046 Penn Avenue; seconded by Ms. Sloan. AYES – 5, NAYS – 0; motion carried.

**TAX COLLECTOR:**

Mr. Schmidt spoke on behalf of the tax collector. He apologized for overstepping his bounds. Everyone received notice of a request for a change in the tax collectors compensation. The tax collector's rates can only be changed every four (4) years. It must be done the year that position is up for election. Any changes in compensation must be done prior to the 15<sup>th</sup> of February. A letter was submitted and everyone received a copy of it. He continued it is a small increase. The tax collector now does the billing for commercial trash and the local service tax. Compensation was never given on these items as they were just established as part of the tax collector's responsibility within the last four (4) years. He would like everyone to review it and they can discuss it at the January meeting. He again stated this is not for the current tax collector; it will be for the new tax collector beginning in 2010. It must be done before the election.

**LIBRARY/RATES 2009 – ELIZABETH SLOAN:**

Ms. Sloan stated that the Library has lost two (2) employees. Ms. Sloan stated there is a young man who currently works at West Lawn Library who is also willing to work for us. He will be starting after the New Year. Ms. Sloan made a motion to hire a new employee, Jonathan Duffy to start training; seconded by Mr. Light. AYES – 5, NAYS – 0; motion carried. The second item was that Mrs. Westbrook had done a study a year or two (2) ago on wages. She stated that Mrs. Westbrook found the going rates are in the area of \$10 to \$12 per hour; however we are still at \$8 per hour. She realizes we can't be raising wages without a millage increase but she is asking Council to perhaps go from \$8 to \$9 per hour. That would allow us to hang on to the people we already have. Ms. Sloan made a motion to increase the rates from \$8 to \$9 per hour; seconded by Mr. Schmidt. Mr. Schmidt questioned that he thought Mrs. Westbrook wanted to hire at \$8.50 per hour not \$9. Ms. Sloan stated they discussed \$9 at the meeting. A discussion ensued at the Library Board meeting. Mrs. Westbrook brought up about a .25 per hour raise however Ms. Sloan

**LIBRARY/ RATES 2009 – ELIZABETH SLOAN (cont'd):**

questioned her if \$9 would help her hang on to her employees. Mrs. Westbrook felt it would. This is a starting rate. Ms. Sloan told her she felt that a .50 raise was too much but they might be able to talk about .25. She wanted to get a starting range that would be competitive. Mr. Zerr stated he had the pay rate schedule. The rate on the schedule was \$8.50 not \$9.00. Mr. Zerr feels we should stay at the \$8.50 and maybe look at this at a later time. Mr. Zerr stated if Ms. Sloan re-tracks her motion, he will make the motion for the pay rates for 2009. Mr. Fitzpatrick stated we have a motion on the floor, it is either withdrawn or it must be voted on. Mr. Fitzpatrick continued that Mr. Zerr or Mr. Schmidt will not be able to make the motion nor vote on it as both have relatives working for the Borough. Ms. Sloan stated let's vote on it. Mr. Wenrich asked for a roll call vote. AYES – 2 (Mr. Light, Ms. Sloan), NAYS – 3 (Mr. Schmidt, Mr. Wenrich, Mr. Zerr); motion did not carry. Mr. Schmidt stated do we need to reintroduce this as \$8.50. Mr. Fitzpatrick stated if the \$8.50 is part of the Borough pay scale we can do it when we do the vote for the entire Borough wages. Ms. Sloan made a motion to adopt the wages that appear on the report for all Borough employees of Sinking Spring; seconded by Mr. Light. AYES – 3, NAYS – 0, ABSTAIN – 2 (Mr. Schmidt and Mr. Zerr); motion carried.

**BRUCE LIGHT:**

Mr. Light thanked the street crew, the office staff, and the Rec Board for the outstanding job they did the night before for our Borough open house. A lot of time and effort goes into that event. Mr. Wenrich sent out a special thank you to the fire department for bringing Santa to the event.

**ADMINISTRATION AND FINANCE – JAMES ZERR:**

Mr. Zerr reminded Council that at last month's meeting we received a letter from Frank and Kathleen Politzer from Winding Brook Drive in regards to their sprinkler system. Mr. Zerr spoke to Mr. Politzer and he did prove that the system did fail on two (2) occasions. We have had similar situations in the past. He has spoken to both Mr. Butkus and Mr. Schmidt. It is there recommendation that we absolve half the bill and forego the penalty. Mr. Zerr stated it would be about \$150.00. Mr. Zerr made the motion to absolve half the bill and waive the penalty fee; seconded by Mr. Schmidt. AYES – 5, NAYS – 0; motion carried.

**SEWER ENGINEER – DAVID SCHLOTT, JR.:**

Mr. Schlott stated that they received correspondence from the Delaware River Basin Commission regarding the upgrade and minor expansion project. It will be on their docket for the December 10<sup>th</sup> meeting as far as approving the permits.

**JAMES ZERR:**

Mr. Zerr stated that the Police Chief's contract is up for review. He believes we should start the process as soon as possible. It expires December 31<sup>st</sup>. Mr. Wenrich questioned Mr. Zerr if he would serve on the committee to which he stated he would. He then asked Mr. Schmidt. Mr. Schmidt declined as he is tied up with some other issues at the present time. Mr. Wenrich stated he will be involved with this issue. The Mayor will be involved also. There was discussion on whom

**JAMES ZERR (cont'd):**

the third person would be. It was decided Mr. Light will be the third and Ms. Sloan will be the alternate. Mr. Zerr requested the Chief have his information in their bins by the 15<sup>th</sup> of December so they can review it and then sit down and have a meeting with him. He can do that.

**UNFINISHED BUSINESS:**

The first item was the Alcon land acquisition. Mr. Fitzpatrick stated we had an advertised public auction on November 25<sup>th</sup> here at the Borough Hall. The only bidder was Alcon Research Limited. They bid \$5,000.00 for the land that is adjacent to their property. This piece of land is subject to the right of way of Pennsylvania Power and Light to put a transmission line through it. It is subject to the Borough for the right to access for emergency vehicles. It is also subject to the restriction of no home, swimming pool or any other dwelling can be built on it. Council in an executive session came up with the minimum bid of \$5,000. It is his recommendation that the agreement be executed. Mr. Zerr made the motion to execute the agreement; seconded by Mr. Schmidt. Ms. Sloan stated if there was a stipulation put on that the Borough will maintain access for safety apparatus and fire trucks. Mr. Wenrich along with Mr. Fitzpatrick stated he did just say that. AYES – 5, NAYS – 0; motion carried.

The next item was the tabled escrow releases for Brookfield Manor. Mr. Ludgate stated a punch list was created a few months ago for the Brookfield Manor area. Some work has been done but the majority of the work has not been completed. New major repairs seem likely for storm sewers. Top course paving has not been done and most likely will not be done as it is getting too cold. At this point in time, they cannot recommend the release of any escrow funds. The cost of repairs and other improvements will likely exceed the amount that is currently in the escrow. The issue will continue to be tabled. There is more work that needs to be done than they have in surety at this point in time. Mr. Fitzpatrick stated we met with them on site and he gave us a schedule and it has not been met. We are in contact with them.

January meeting will be on January 5, 2009. The 5<sup>th</sup> is a Monday however we are not in a reorganizing year. It was decided the meeting will be Thursday, January 8<sup>th</sup> at 7:00 p.m. Mr. Schmidt stated that Mrs. Shade might have advertised the 5<sup>th</sup> date already. Ms. Sloan stated we should check with Mrs. Shade and have her send us an e-mail giving us the date. This will be left up to Mrs. Shade.

On December 30, 2008 we will have our final Council meeting of the year. This will be to pay the remaining bills. It will be a brief meeting.

Santa's visit will be Saturday, December 20<sup>th</sup>; the north side of the Borough at 10:00 a.m. and the south side after that or 12:00 p.m.

Mr. Fitzpatrick stated a complaint was received by the office from a business in the Borough. There apparently is blocking of the crossing of Columbia Avenue when Norfolk Southern is making deliveries to other businesses in the Borough. They must switch cars. The response is that we should write a letter to Norfolk Southern and ask them (since we don't control their schedules and deliveries) to try to do this in non peak hours so the impact to the Borough traffic

**UNFINISHED BUSINESS (cont'd):**

patterns will be minimal. Mr. Wenrich stated we had a meeting with them in regards to the PPC terminal. The railroad can do what the railroad wants at anytime. We did ask for some consideration. Once the siding goes in for the biodiesel and ethanol fuels, these types of things should and will be done during evening hours. They can't specify direct times. It should be between 7 and 11 at night. Mr. Zerr stated the shifting should occur around 10:00 p.m. Mr. Wenrich stated it is what it is. We can't do very much about this.

**PUBLIC COMMENT:**

No public comment.

**TREASURER'S REPORT:**

General Account

Opening Balance – November 30, 2008	\$	31,421.73
PLGIT		8,988.48
Invest		49,405.02
Recreation		69,003.84
General Invest		( 67,949.18)
To be Paid		<u>                    </u>
Total Acct Funds	\$	90,869.98

Sewer Account

Opening Balance – November 30, 2008	\$	90,962.16
PLGIT		60,527.19
Invest		444,183.55
Sewer Revenue		(722.56)
To Be Paid		<u>                    </u>
Total Acct Funds	\$	594,950.34

Mr. Light made a motion to accept the Treasurer's Report; seconded by Ms. Sloan. AYES – 5, NAYS – 0; motion carried.

**ADJOURNMENT:**

The meeting was adjourned at 8:27 p.m.

Respectfully submitted,

\_\_\_\_\_  
Regina M. Shade, Borough Secretary/Treasurer
